TEST CODE Required for Sample Processing

FOR EACH SUBMITTED SAMPLE:
- Fill out separate COC forms for job sites/samples requiring separate reports.
- Assign a unique sample number and write this number on the bottle/swab.
- Record each Sample # on a row below and record a Sample Site Description
- List sample type (bulk water, swab, contact plate, etc.) in the first section.
- List sample volume or area for surface samples in the next section.
- List test code for each analysis in requested section to the right for each sample.
- Request RUSH analysis in the "Notes" section at the bottom of the page. Additional charges will apply.
- Overnight shipping for Legionella is recommended; 2nd day acceptable per ISO11731:2017.
- *E. coli* and Endotoxin samples must be shipped overnight on cold packs (no ice).
- Sign below and date to document relinquishing samples.

- **L001** *Legionella* Non-Potable Culture
- **L011** *Legionella* Potable Culture
- **P001** *Legionella* Non-Potable vPCR
- **P011** *Legionella* Potable vPCR
- **B010** HPC- Aerobic Bacteria Count
- **B011** Anaerobic Bacteria Count
- **B018** *Pseudomonas aeruginosa*
- **B022** Total Coliforms + *E. coli*
- **B222** Total Coliforms + *E. coli* for GSA Testing
- **CMS1** CMS Waterborne Pathogens
- **LCMS** *Legionella* + CMS Waterborne Pathogens
- **E025** Endotoxin 0.25 EU/ml
- **E010** Endotoxin 10 EU/ml
- **F007** Fungal Culture

CALL FOR ADDITIONAL TEST CODES

- **M001** Acid Producing Bacteria (MIC)
- **M002** Denitrifying Bacteria (MIC)
- **M003** Iron Related Bacteria (MIC)
- **M004** Slime Forming Bacteria (MIC)
- **M005** Sulfate Reducing Bacteria (MIC)
- **M006** Fluorescent Pseudomonas Bacteria (MIC)
- **M007** Nitrifying Bacteria (MIC)
- **M008** Algae (MIC)
- **WBCS** Basic Water Conditions (pH, Alkalinity, Conductivity and Hardness)
- **WCCS** Comprehensive Water Conditions (pH, Turbidity, Color, Alkalinity, Hardness, Resistivity, Free and Total Chlorine)
- **WCCL** Total + Free Chlorine
- **WTOC** Total Organic Carbon
